Dear David, Sorry no time for more response. Deal accepted. Herewith copies WWs I & II. There were 5,000 copies of O in NO shipped to SF. I never got a penny out of one and never could get the remainders back because I couldn't get anyone to get them to a truck or to be there for the truck to pick up. This is the way my life has been.

Please tell me where and how you got the book so I can get paid for them Canyon gave me all there were left because I never got a penny from them either. I'd like to get them all. I have no reason to believe that anyone having them there ever paid. Imagine all that work without any pay! Thanks and best,
